Annual Accessibility Report 2026

Prepared by the Documents Team. This page is the input for the PDF/A and PDF/UA tests: it uses headings in order, lists, a data table with header cells, figures with alternative text, a decorative image, a quotation and links.

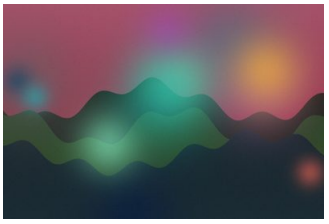
Summary



In 2026 the team converted **48,210** documents. Every document now declares its language and title, and every image carries a text alternative or is marked as decorative.

Goals met

- Tagged output for all customer-facing documents
  - Invoices and statements
  - Contracts
- Archival output for records kept longer than ten years

> Accessible documents are better documents for everyone.
